Hundreds of Anglers Casting the Fly in the Mountain Streams.

KINGSTON, N. Y., May 18 .- The trout fish-

the murky stream. There is no doubt that the

ideal home of the brook trout is in the Catskill Mountains. Here the streams have their source on the mountain tops, thousands of feet above the level of the sea, and flow pure

and undefiled over rocky beds and through primeval forests, through which the sun's rays find it hard to penetrate. It is in the streams shich steadily flow through these shady and

THE MOTT HAVEN GAMES.

### Harvard Expects to be Winner in the Important Events.

CAMBRIDGE, May 18 .- The intercollegiate games between Harvard, Yale, Princeton, Columbia, and the University of Pennsylvania, which take place at Mott Haven on the 25th inst., are for the moment the talk of the college. For eight years, with the exception of 1887. Harvard has won the Mott Haven cup.

The team which will represent Harvard this year is not a strong one. As in 1887, many of the best athletic men have either left college. the best athletic men have either left college, or, having helped to win one victory, have retired. However, there is still left a goodly showing of last year's winners, and Harvard men think that there is still cause for hope.

The men began training early in January under the supervision of the college trainer, Mr. Lathrep, and the capitaln of the team, G. S. Nanteli, 180. The regular gymnasium work lasted until the weather permitted out-of-door exercise, when the men set at work on the tack for the various distances for which they had entered. On the 8th last, the spring meeting of the Harvard Athletic Association brought cut the men lortheir lirst test. Two college records were broken.

E. A. Bailey, 'Il, towered the Harvard record for the two-mile bicycle race to 6 minutes 1 second, which is 20 seconds faster than the time made by F. A. Clark, '89, the winner of the Yale Athletic Association prize in the games held at New Haven on May 15.

E. C. Leavitt, '89, in the pole vault, towered the Harvard record by two inches, making the jump of 10 feet 4 inches, which is one inchestort of the record made by T. C. Sherman, '80, of Yale.

There has been considerable contention this year in solecting men for the tug-of-war team. At one time there was little hope of getting any at all. But within the last three weeks the men who will probably constitute the team have been working at the roje constantly. Still, Harvard has very little hope of their success in the pull against Columbia. The team J. J. Huggins, L. S., anchor: O. M. Anderson. '89; G. A. Ewald; E. W. Grew, '89.

testlessness, a feverish feeling, sleeplessness, per Restlements, a toverish resing, according in the headaches, disziness, dimness of vision, ringing in the ears, difficulty in thinking, trouble in remembering names and the faces even of friends. The man or woman attacked by Paresis is often shocked or an-noyed by little noises and triding things. The nervous system is often in such condition that very slight causes, er even no cause at all, may excite to sudden outbursts of anger. A feeling of pressure upon the brain is frequently followed by seasons of despondency, men tal depression, alternating with periods of wild, illusive hopes. When the brain begins to consume, or decay, many of these symptoms become aggravated. The world seems strange or different from what it was in the past; thought becomes a positive effort and life an

intense burden. Too often the victim of this great modern disease seeks to overcome these symptoms by stimulants. Nota-ing could be more injurious. The system needs sooth-ing, toning, and building up. Something unusual is de-manded. And here is where the great difficulty has always been-to find something pure and yet positive in its results. The late Prof. Pheips of Dartmouth College realized this when he began his investigations which re-sulted in the discovery of Paine's Celery Compound. He knew men and women required something heretofore unknown to the world, and his great discovery has fur-nished it. This compound checks Paresis even after it has secured a foothold in the system. Taken on the approach of the first symptoms, it will positively prevent their increase. No man or woman need fear this terri-ble disease if this Compound is taken in time. Dr. Small of this city declares it to be "a most valuable therapeutic agent." Senator William M. Evaris, who therapseutic agent. Senator William A. Evaria, was has known of this wonderful remedy since its discovery has used it with great success, and knows of its remark able power. Its high endorsements by the medical fratternity and the cures it is effecting easily account for its wonderful popularity and the unusual stir it has coused in this community. You can't afford to be without it.

INTER-SCHOLASTIC GAMES.

### Five Records Broken at the Field Meeting at Merris Dock Yesterday.

Five records were broken yesterday at the eleventh annual field meeting of the Inter-Scholastic Athletic Association of this city which was held at Berkeley Oval, Morris Dock The association comprises the athletic clubs of Cutler's, Everson's. Dwight, Columbia Grammar, and Berkeley schools. The games were open ito all pupils of private schools in New York who lare under 20 years of age. No student who has attended college was allowed to compete. A number of pretty girls, wearing the colors of their favorite school, gave the grand stand a gay appearance.

The 100-yards dash was run in three heats. the final being won by F. A. Baker of Berkeley in 111 seconds, N. H. Lord of Everson's second.

The half-mile run was won by G. R. Fearing of Cutler's in 2 minutes 5% seconds. E.W. Aller of Berkeley second in 2 minutes 7 is seconds. The best previous record was 2 minutes 12 is

of Berkeley secondi in 2 minutes 7% seconds. The best previous record was 2 minutes 12% seconds.

The running broad jump was won by J. G. Carson of Columbia Grammar School by a jump of 18 feet 3 liches, H. A. Goddard of Berkeley second.

The 100-yard dash for boys under 15 was run in three heats. The final was won by E. A. Auchineloss of Cutler's in 12% seconds. W. Sterry of Everson's second.

The tug of war of 475 bounds was between Barnard, Berkeley, Everson's, and Columbia Grammar. The first tug was won by Berkeley by 9% inches, and the second by Everson's by 4 inches. The final tug between Berkeley and Everson's was won by the latter by about three-quarters of an inch.

The one-mile run was won by G. Collamore of Wilson & Kellogg's school in 4 minutes 57% seconds.

There was no second.

The 120-yards hurdle race, with 3-foot hurdles, was won by G. R. Fearing of Cutler's in 16% seconds. The previous best record was 18 seconds, and as that was considered phenomenal time the judges measured the track vesterday to see if there had not been a mis-

Some Mistake About This Item.

President J. F. Emmons of the States Island Rapid Transit Company said yesterday that the published statement that his company put in a bill for \$255 for the use of the ferry-boat Erastus Wyman by the Centennial Cele-bration Committee was incorrect. The com-rany made no charge whatever for the use of the boat, and has not accepted any pay.

### Hopper Will Fight Dacey.

George Young called at the Police Gazette office yesterday and issued a challenge offering to match Jack Hopper to a finish against Billy Dacey for \$250 a side and a purse. Young says that if Dacey won't fight, he will match Hopper for the same amount against any one at 126 to 128 pounds—but that he will fight Dacey at 133 pounds. If he will make the match.

### Cronin Has Not Been in Toronto. CHICAGO, May 18 .- The story of Dr. Cro-

### Killed at a Grade Crossing.

FERNWOOD, Pa., May 18 .- James McCartney, a truck farmer of Concord township, and s grandson, James Cumberland, were almost his grandson, James Cumberland, were almost instantly killed to-day by being struck by an express train at the grade crossing near Folton station, on the Baitimore and Ohio Railroad, below Chester. They were in a wagon loaded with truck coming to the Chester market. The horse was also killed and carried nearly to Folton station, a hundred yards below. The crossing is a dangerous one, and was reported against by the last Grand Jury, Mr. McCartney was an old resident of Concord and was well known throughout the county.

Carriages on the Track.

DETROIT, May 18 .- Train No. 20 on the Canadian branch of the Michigan Central last night "struck something." as the engineer renight "struck something," as the engineer reported to the train despatcher. It was found that the train had struck a horse and buggy belonging to Joseph Bechard of South Bover, killing the man and horse and smashing the buggy to smithereens. A little later another Michigan Central train struck a double carriage driven by M. Hutchins of Hurst, a short distance from Windsor. The horses were killed outright and Hutchins so badly injured that he will probably die.

Fair Ontlook for Peaches and Straw berries.

WILMINGTON, Del., May 18 .- The Dover Sentinel to-day prints advices as to the peach and berry crops from points all over Delaware and several localities in Maryland. Summarized, they indicate a fair crop of peaches, and an unusually good yield of strawberries, of better average quality than usual. Some damage to late peaches by frost and storm is reported, and the whole crop has yet to run the gauntiet of the June drop and rose bugs. The best reports come from western Sussex. In eastern Sussex and Kent growers report from a light to an average crop in prospect. From Wheomico and Caroline counties. Maryland, come very favorable reports, while Kentcounty growers do not look for over half a crop of peaches. Pears promise well in a few localities: in others poorly. Berries are likely to yield well everywhere.

### The Cable Too Greasy.

CHICAGO, May 18 .- The wear and tear on the North Side Cable loop line has been some-thing fearful, and the frequency with which new cables have had to be purchased was cutting considerable of a figure in the expense account of the road. So Mr. Yerkes sent for the wise man of San Francisco, who is supposed to know all about cable roads. He looked things over and said: "O, we can fix this easily. Your grips wear out the rope. I'll grease the rope and then the friction will be reduced." So Mr. Yerkes's men greased that toop line, and since then people have been walking. The cable is so slippery that when the grip strikes a place that brings an extra strain on it it fails to hold to the rope, the car stops, and the pas-sengers walk. wise man of San Francisco, who is supposed to
